

CSI Pittsburgh Technical Seminar

An Introduction to PlanGrid

Tuesday November 21, 2017

- **Presenter: MORGAN TALTY:** Morgan is the Regional Sales Manager with PlanGrid, focused in the greater Pittsburgh and Cleveland markets. Her professional background is primarily technology start-ups with an emphasis on SaaS products.
- **Topic: What is PlanGrid?** PlanGrid is a Construction Productivity Software that allows contractors and owners in commercial, heavy civil, and other industries to work together throughout the project lifecycle. They've brought technology and ideas from other industries to automate the tedious tasks and free up teams to collaborate from anywhere. Morgan will present an overview of the industry's move to mobile technology and provide a brief overview of PlanGrid. She will provide a PlanGrid demonstration (app and web versions) and answer questions concerning the technology.
