## SCHEDULE OF CHARGES

### Flush & Construction Meters

Rate for water used by a municipality from fire hydrant for sewer flushing or street washing, with permission of Authority.  
Metered - \$3.876/100 cu. ft. + cost to Authority for rendering service.

Minimum charge: \$20.00/day  
Rate for water service furnished through a public fire hydrant and measured by a meter furnished by the Authority. Operation of hydrant must be performed by an Authority employee or a person authorized by the Authority. The following charges are required for this service: A \$250.00 meter deposit; a \$20.00/day charge, a rate charge of \$4.824/1,00 cu ft; and, any additional cost(s) for rendering service by the Authority. If the meter and its appendages are lost, stolen or damaged, actual cost of the meter and/or appendages will also be charged.

For water used from a fire hydrant for construction, industrial, etc. use, without permission of the Authority.

Rate charge: \$4.824/100 cu. ft. for estimated quantity used plus cost to the Authority. Minimum charge \$60.00

Water service furnished through an existing Authority service tap and measured by a meter furnished by the Authority. The applicant must furnish a temporary enclosed area for the protection of the Authority's meter. An inlet valve, outlet valve and an approved backflow preventer are required and must be in place before a meter can be set and the water turned on. The rate charge is \$4.824/100 cu. ft. + cost to Authority for service. \$60.00 deposit. Turn on/off charge: \$20.00 each. If the meter is lost or stolen, then actual cost of the meter will be charged.

Rate charged per hydrant per year for providing fire service to a municipality, borough or township: \$100.00
